MARVA

PARK COLLEGE

ENTRANCE - 1 MILE

Because we know kindness exists. Because we learn to sustain ourselves in positive ways. Because we can develop mentally, physically and spiritually . . . we can face the future with confidence and high hopes.

PARK HOUSE

The Park House, built in 1834, was originally the home of Col. George S. Park, founder of Park College. The house was moved to its present location with the opening of the new entrance and now serves as a historical museum for the college.

Colonel George S. Park

Dr. John A. McAfee
First President
of
Park College

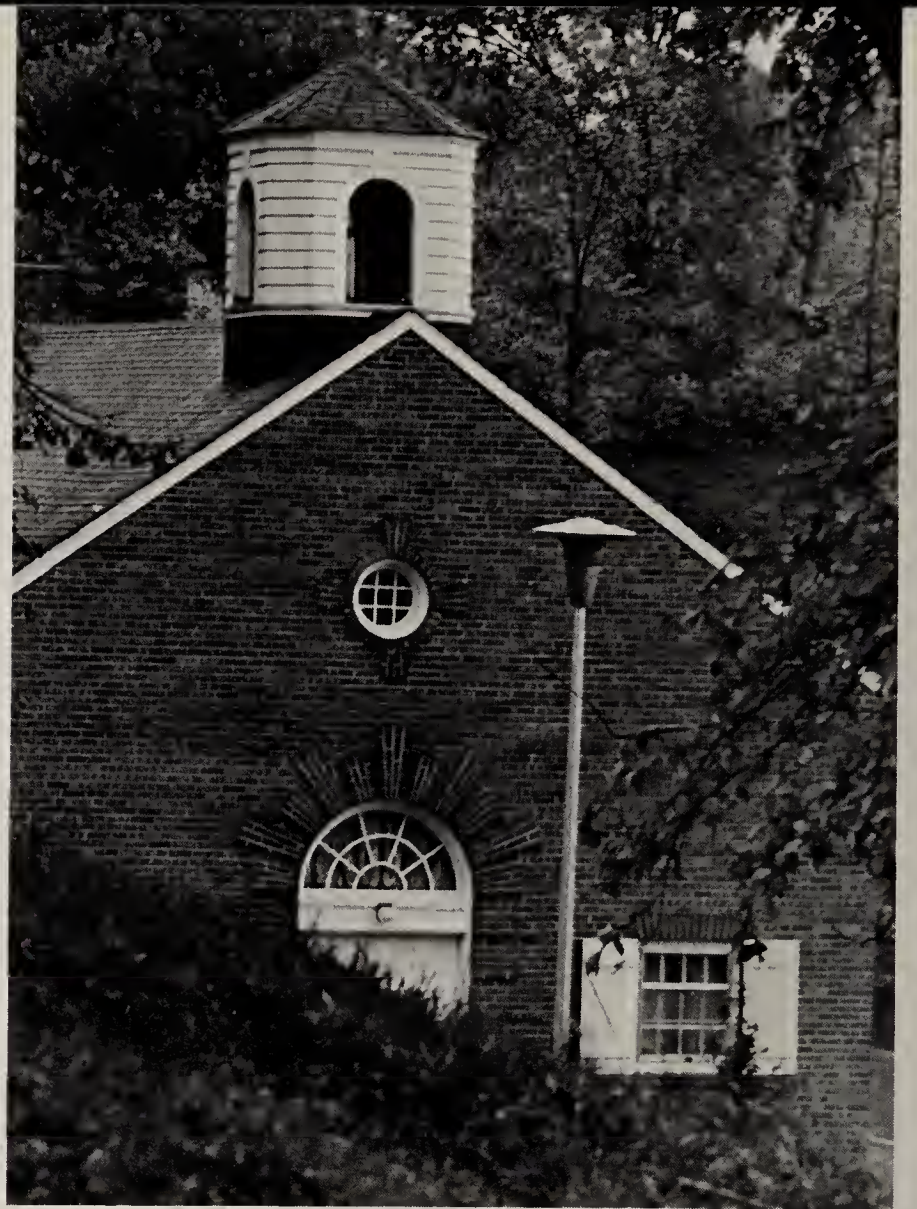

WHITE HOUSE

First to occupy the White House were President Hawley & his family in 1917. This year it became the home of Park's 10th President, Kenneth Beyer.

MEETIN' HOUSE

The Meetin' House was dedicated in 1932 in memory of Francis Clinton. Its function is precisely what its name indicates: a meetin' house, meetings, parties, lectures, and some special assemblies are held here.

THOMPSON COMMONS

Thompson Commons, named after Mr. O. A. Thompson, was dedicated in 1927 and renovated in 1958, 1961, and last year by the S.U.D.C. At the present it is the major area for socializing as it contains the dining hall, student government offices, bookstore, and the Pub, the student Union.

HERR HOUSE

Herr House was built by the family of Donald Davis Herr and dedicated in 1927. Traditionally an upperclassmen dorm, this year is no exception. House mother this year is Mrs. Dorothy Rowell.

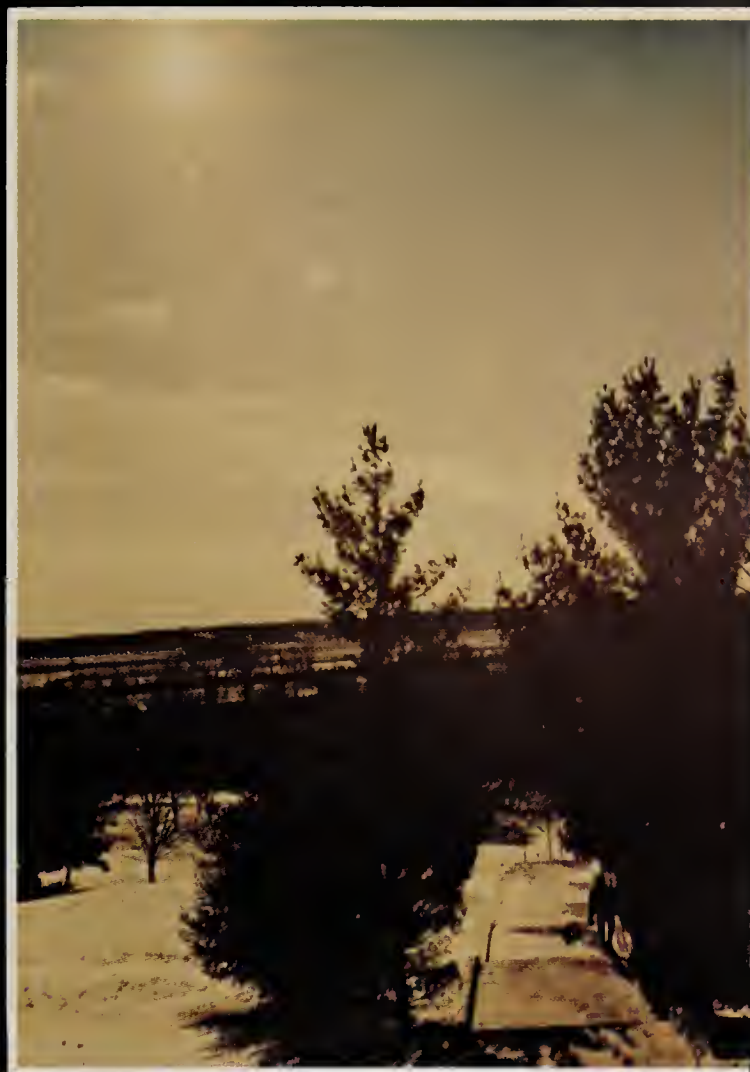

HAWLEY HALL

(Closed this year.)

CARNEGIE LIBRARY

The Carnegie Library was built in two stages, in 1909, and 1923, and remodeled in 1962-63.

WAKEFIELD SCIENCE HALL

First occupied in 1924, the Wakefield Science Hall was contributed by Mr. & Mrs. Lee Wakefield and friends and alumni of the college. Today it is the center of the Natural Science Division.

ALUMNI HALL

Alumni Hall, was built by funds from Park's alumni and friends and dedicated in 1958. It houses the auditorium, the art, drama, and education departments, and office of audio visual.

WAVERLY HEALTH CENTER

Anthony Dey of New York gave funds for this building in 1912. It was named by Mr. Dey for Waverly, Kentucky, the birthplace of his wife. The building was remodeled in 1947.

GYMNASIUM

CHARLES S. SCOTT ASTRONOMICAL OBSERVATORY

The Charles S. Scott Observatory was built in memory of him 76 years ago. Unused for three years, it has been refurnished and returned to use with its original equipment, being the only one of its kind in the area.

KANSAS CITY SKYLINE

COPLEY THAW HALL

Copley-Thaw Hall was built in 1918 by Mrs. Mary C. Thaw in memory of Josiah Copley, her father, and William Thaw, her husband. It is the home of freshmen.

NEW HALL

A new co-ed residence hall, providing living accommodations for 160 students, was first occupied in January, 1968.

DEARING HALL

(Closed
this
year.)

WOODWARD HALL

Woodward Hall was built in 1908 in memory of Rev. George S. Woodward and of the stones from Old Number 1, the hotel in which Park found its beginning.

SHEPHERD HALL

This 12-unit modern apartment structure is occupied by faculty, staff members, and students. Funds for the building came from the estate of Fred N. Shepard, Class of 1900. Shepard was completed in the spring of 1969.

Most honors that come to men in their lifetime would be considered as rewards for accomplishment. It is rare indeed that honors are conferred for what a man is.

The degree being given to you today, however, is such an honor. It recognizes you for your qualities as a person as much as for your achievements as President of this institution.

Give us not bunches of flowers — planted,
pruned and plucked by you in all your wisdom
rather, the seeds that we may grow our own.

Never treat a brother like a
passing stranger
always try and keep the love
lite burning
listen only to his song and
watch his eyes
for he might be the prince of
peace returning
yes, he might be the prince of
peace returning.

Some things take so long,
but how do I explain
when not too many people
can see we're all the same,
and because of all their tears
their eyes can't hope to see
the beauty that surrounds them
isn't it a pity?

Walli Elmlark

"Magic should be made as readily available and easily packaged as T.V. dinners," says White Witch Walli Elmlark. Ms. Elmlark's lecture provided a widely entertaining interlude for the students who were interested.

Joe Spear

In October, Joe Spear lectured on "An Expose of the FBI and Secret Service Surveillance of Citizens." He is presently involved in informing citizens of the goings on in private offices of the Secret Service and F.B.I. He told the Park College community that there are files and dossiers kept on many U.S. citizens, especially the ones who are outspoken. Spear has been called a "muckraker," he maintains "If there weren't muck, there would be no need for muckrakers."

Former professional comedian turned Civil Rights leader, Dick Gregory gave an inspiring lecture here in December. Gregory, truly a self made man, said that there is a great social revolution going on in America today. The wonderful thing about it is that it isn't Black and White, but simply right against wrong. The lecture was both a moving & meaningful experience.

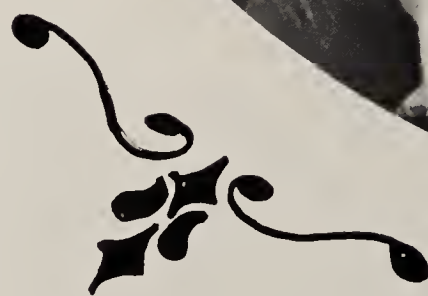

Ron Crick and the Rose Hip String Band

The Northland Symphony Orchestra

Further events at Park College this past year included a luncheon and poetry reading by a noted poetess, Mona Van Duyn, and a poetry workshop supervised by Devins Award winner Jonathan Holden. Jonathan Kozol, author of *DEATH AT AN EARLY AGE* lectured the Park College Community on the topic of Free Schools. Park College was also privileged to have a series of concerts performed by visiting guests, and most important, our own Choir and Northland Symphony Orchestra.

PRESENT

Directed by Robert Elliot

hermits

Alpha Phi Omega

Alpha Phi Omega is an active national service fraternity which has been in operation since 1925. The Iota Chapter, which is at Park College, is the ninth chapter of the organization to be founded in the United States. On the Park College campus A.P.O. has been involved in many useful projects such as the building of the observatory steps, repair of Mackay tower clock, and institution of a monthly Orphans Day. On Orphans Day, the children of St. John's Orphanage get to spend a day away, entertained by A.P.O. brothers. The most recent achievements of Alpha Phi Omega were the sponsorships of Harvest Festival and S.U.D.C. Carnival.

ΣΑΣ

Joyce Floyd

I love you in a place,
where there's no space & time.
I love you for my life,
you are a friend of mine.
And when my life is over,
remember when we were together.
We were alone & I was singing
this song to you.

Sunrise doesn't last all morning
a cloud burst doesn't last all day;
seems my love is up and left you
with no warning,
its not always going to be that way.
all things must pass
all things must pass away.
None of life's strings can last;
so I must be on my way.
